## Jews Jewing Mel Gibson

by Keith Johnson

Does it ever end? Get a load of this...

Congregation Beth Shalom in Corona, California has sent Mel Gibson a letter in hopes of guilting him into forking over some cash to bail them out of a bad investment they made on their local synagogue. Apparently, the group took out a giant loan that they can't afford to pay back and are now facing foreclosure.

In a move reminiscent of something out of post-war Germany, the Southern California synagogue is looking to Gibson as though he should pay some kind of "Holocaust" style reparations for the so-called anti-Semitic [tirade](#) he made back in 2006.

I guess it's not enough that Mel has already spent millions of dollars contributing to Jewish charities, including \$5 million to the Jewish Cedars Sinai Hospital. Not to mention getting down on his knees and apologizing to the Jewish community on numerous occasions—only to have his career railroaded anyway.

Entertainment website [TMZ](#) apparently got their hands on the [letter](#). Here's what it says:

*"Our proposal to you, Mr. Gibson, is since you have been cited as an Anti-Semitic, and have denied those allegations, what better way to prove to all your fans and the nay Sayers — than to endorse and help raise funds for our cause — SOS, Save Our Synagogue..."Mr. Gibson, we offer you to be a Mensch and make a sizable contribution to our cause."*

That's what you call CHUTZPAH, folks!

NOT REALLY, CONSIDERING MELVILLE SHAVELSTEIN IS A GOD DAMNED JEW, and got all of his money from other jew ripping off Whites, that let him be a 'movie star' in the first place.

You not knowing Melville is a kike?

You know, I read an article on MelGibsteins site where he called that his birth name but I can't find it anymore. Who the hell knows, but he is completely surrounded by jews and everyone who works for Moel is a jew. He also is successful in jewlywood– and it doesn't get much more judaized than that, except maybe zog and its counterparts—even after all the downright antisemitic things he said har har.

I don't trust him. Gut feeling. jew or not jew says "no" so go figure. hehe

Comments are not too favorable here:

I don't think Gibson is a jew. He doesn't have any of those whiny nasal-y qualities they have. I think he's one of the 'goys' that the jews employ in kike-e-wood. They can't take over all the visible positions 100% – they like to employ front men from the host population while maintaining control from behind the scenes. That's the kike M.O. And I don't think he'd have gone on those anti-jew rants if he was a jew. And remember how he had to grovel before the kikes for that. I'm watching his 'Edge of Darkness' movie now – its about a cabal conspiracy to carry out a false flag and blame it on the muslims. Some say this will be his last film.

My archives are fairly extensive now, and provided they survive into the next generation there will be plenty of time for review of jew crimes, atrocities, crimes against humanity, and crimes against nature, after we get this place cleaned up.

Right now the jew may not give a fuck because they control the air we breathe, along with much else, but the fucking air is sprayed white with fibers, particles, and ungodly looking shit I've been observing under a microscope steadily for the past year. I've documented everything of course, which brings me to the total disinfo

announcement below, which claims that micro-fibers from our washing machines are now in the food chain! BULLSHIT, DOUBLE BULLSHIT. These god damn nano-fibers are the same ones they spray from the fucking tankers everywhere and I've been sampling them in the rain, the air, spider webs, and on surfaces no where near a god damn washing machine and taking photographs for over a year of this exact stuff. IT IS NOT HOUSEHOLD POLYESTER FIBERS. It is nanofibers and patented technology with a multitude of uses and for delivery of vaccines or bio-weapons. ALL THESE FILTHY CREATURES HAVE TO DO NOW IS CHANGE THE FORMULA AND WE ARE DONE. If this following article isn't disinfo then I don't know what is:

"Microscopic plastic debris from washing clothes is accumulating in the marine environment and could be entering the food chain, a study has warned."
